The Smoke-free (Signs) Regulations 2007: Extracts :

No Smoking Signs in Premises

Except where paragraphs (3) and (4) apply, at each entrance to smoke-free premises there shall be displayed in a prominent position at least one no smoking sign which:

- (a) is of A5 size
- (b) displays the no smoking symbol; and
- (c) contains, in characters that can easily be read by persons using the entrance, the words: 'No smoking. It is against the law to smoke in these premises'

Smoke-free premises means all public places and workplaces other than those that are exempt by virtue of regulations made under section 3 of the Act.

No Smoking Signs in Vehicles

Any person with management responsibilities for a smoke-free vehicle shall be under a duty corresponding to that in section 6(1) of the Act to ensure that at least one no smoking sign is displayed in a prominent position in each compartment of his vehicle. 'Compartment' includes each part of a vehicle which:

- (a) is constructed or adapted to accommodate persons; and
- (b) is, or may from time to time, be wholly or partly covered by a roof

Smoke-free vehicle means a vehicle which is smoke-free by virtue of section 5 of the Act.

Smoking in enclosed places will be banned in England from 1st July 2007.

These pages contain all the products you need to conform to this new legislation.

Prohibition signs - Instruct, inform, advise staff and visitors in any action which is specifically prohibited

All prohibition signs comply with BS5499 and The Health & Safety (Signs & Signals) Regulations 1996.

All signs available in 1mm rigid plastic, self adhesive vinyl or rigid plastic with self adhesive backing.

Use the smoking shelters shown below to provide a cost effective smoking point that can be used as a meeting or collection area, we can offer a nationwide installation service. Please contact our sales office for more information

Budget Smoking Shelter

This Budget Shelter is manufactured to comply with the smoking in confined spaces regulations. Constructed from rigid box section tube, this shelter comes in a choice of powder coated colours and 2 sizes. It can be fixed above ground using the adjustable feet provided, ideal where space is at a premium

Domed Roof Shelter

The Domed Roof Shelter provides a cost effective, weather resistant and great looking solution to a wide range of needs. Constructed from incredibly strong 40mm square tube, the aluminium frames are polyester/epoxy powder coated making them attractive and rustproof. All glazing is made from scratch resistant 6mm PTEG co polyester/polycarbonate that will not yellow in sunlight

Smoke Station Porch SS21

Protection for fewer smokers or where space is a premium

For companies who want a shelter but don't have the space to site one. The same durable and protective domed roof is easily attached to walls or posts to overhang doorways or other areas designated for smokers.

The lightweight aluminium and polycarbonate structure will not rust and provides a great smoking policy solution.

MAKE SURE YOU KNOW THE LAW!

Premier Smoking Shelter

Available as a 2 or 3 bay shelter, complete with domed roof and side panels, ideal for larger work forces. Manufactured from box section steel and PETG which does not scratch or yellow in sunlight, can be used for smokers and non smokers alike

Please contact our sales office for further information
Bespoke shelters can be manufactured to your requirements

* Delivery cost for shelters pending address

* Fitting service available

All products shown on this page are available in 3 colours

Wall Mounted Ashtray

*Fixes easily to a wall and can be placed next to entrances or at 'smoker's corners'.
Ensures cigarette butts are kept out of sight
Discourages litter and is safe and hygienic
Can be cleaned and emptied in under 60 seconds
Encourages smokers to dispose of their cigarettes responsibly*

How it works

The bin's sloping top prevents litter being placed on top and its front grill allows only cigarette butts to be placed inside. Unique internal baffles reduce the smoke return and reduce available oxygen in the collection box. The collection box is locked in place and, once opened, slides out easily. The bin can be emptied in seconds.

Finishes for both bins

Stainless Steel Black Textured

Antique Silver Antique Green

Please state finish when ordering

The Minibin Ashtray
The Mini Bin will accept 66% of the number of butts as its brother; but will still give you a near 90% clear-up rate when placed near your entrances or 'smoker's corners'.

Cig-Arrête® Stand Alone Module

For use in large spaces. Designed for the detection of unauthorised smoking in areas subject to high winds, rapid ventilation, smoke and gas. Typical applications include open areas, building entry/exit points, rooms with high ceilings above 12 feet (3m) or locations subject to intermittent smoke or vapour.

This module will detect a 25mm (1") flame from a match or cigarette lighter at 6 metres (6 yards) within 1 second and produce a voice message asking smokers to extinguish their cigarettes.

SS31
£165.00

Cig-Arrête® Stand Alone Module

For use in enclosed space. Designed for the detection of cigarette smoke and drug residues in enclosed areas such as restrooms, bathrooms and offices, each module will protect an area of approximately 9m² (9yd²).

The module will automatically sound a prerecorded voice message asking smokers to extinguish their cigarettes, whenever cigarette smoke is detected, thereby helping to prevent illicit smoking on your premises and providing a visual and audible re-enforcement of your commitment to creating a smoke-free environment

NEW

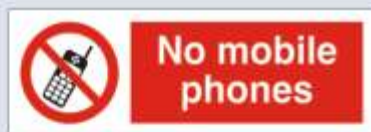

LEGISLATION UPDATE

Use of mobiles without hands-free...

From February 27th 2007, if you are caught using a mobile phone in a moving vehicle without a hands-free kit, you will receive a £60 fine and three penalty points on your licence.

Enforce your fleet policy on mobile use with these in-car decals.
